CRIED NEWSBOYS****Bank Messenger Was Mis-  
taken for Robber.****SURROUNDED IN ALLEY****RAN FROM BACK DOOR OF BANK  
OF COMMERCE.****Dropped Valise and Crowd Thought He  
Was Reaching for a Revolver—  
Was Bound for the Clear-  
ing House.****"Thief! Thief! Thief!"  
"He's robbin' the bank! Stop 'em! Hi,  
there!"**

These frantic shouts, with many others, followed a smooth-faced young man, wearing a Panama hat, down Post-Dispatch alley a few minutes before 10:30 o'clock Thursday morning.

The youth had emerged from the back door of the National Bank of Commerce, which opens into the alley a few feet north of the rear end of the Post-Dispatch building.

With a valise in one hand and a huge roll of money, of course, in the other, he issued from the back entrance with a leap and tore down the alley toward Pine street.

Not Jesse James in his palmy days, nor Dick Turpin in his most romantic episodes, ever made an exit and a get-away in quicker time than did this smooth-faced young man without the Panama.

He wore a cap. Maybe it was a pirate's cap.

No sooner had the runner touched the alley pavement than his pursuers were up and at him. Hundreds of newsboys lined the alley, waiting for the midday edition of the Post-Dispatch.

The boys had read all about Harry Tracy and the chase he gave Sheriff Cuddehe and two states.

They had read of the young man, wearing a Panama, who invaded the St. Louis Trust Co.'s banking room and tried to fish a roll of money from the teller's counter with a hooked wire.

Naturally they were on the outlook for bank thieves.

Clerks joined the posse.

Others than newsboys helped to form the alley posse in waiting. A number of young men working in the stores and offices about the alley were out there cooling off themselves and warming up dry goods goods boxes and mail bags.

The youth with the grip and the huge roll took the center of the alley. "World any one else ran out of the alley door of a bank, carrying a grip and a roll, and then down the alley 'like mad'?" Verily, no.

It was a case of being running the gauntlet for the smooth-faced youth. Every newsboy and every cooling clerk and store porter was after him. They were in the alley, of Walt Whitman, "in mass."

They closed in from each side of the alley and made desperate snatches and grabs.

The alley, being not so wide as a street, became choked, and those in the rear trampled upon each other, each in his eagerness to be the one to capture the robber.

The fallen ones formed a barricade over which those in the rear could reach with reckless courage.

"Look out! He's got a gun!" shouted one of the young men who happened to be in front and was awaiting the arrival of the runner.

The youth with the plunder dropped the valise, and it was supposed that he was freighting his gun hand in order to draw his weapon and begin action.

The crowd fell back on each side. The barricade, which was making mighty effort to arise, lay prone again and was glad to be in that position.

Those still behind the barricade took refuge by crouching in the gutter.

This gave the fugitive his opportunity. He snatched the valise and ran like a deer, and walked back to the doorway.

"You guys will make me late," he said, disgustedly. "I've got only three minutes left."

Then he picked up the valise full of checks, nonnegotiable, and gripped tighter his roll of the same unportable paper and resumed his run.

He was just in time for the St. Louis clearing house closes at 10:30 on Thursday, and all reports from banks must be in by 11 o'clock, to be included in the daily clearing.

A sprinter was Joe Bailey, messenger for the National Bank of Commerce.

The Democratic state committee, which met at the Laclede Hotel today, has under consideration these questions, which are believed to be of paramount importance:

1. The election of an executive committee to handle the funds for the fall campaign. The chief functionary in this respect will, of course, be the chairman of that body.

2. The election of a secretary and a treasurer to succeed J. H. Edwards, chief clerk in the office of the secretary of state, who has resigned.

3. To formulate a plan of action for the coming state elections.

T. F. Mitchum was unanimously elected secretary of the state Democratic committee. He had no opposition.

The committee adjourned to meet at 4 o'clock, when an executive, finance and committee on organization will be chosen.

The executive committee is to consist of 15 members. At the close of the session Thursday afternoon Harry Hawes held a long conference with Chairman Rothwell.

Before the State Committee met Gov. Dockery passed the word to his lieutenants to support Thomas F. Mitchum of Sedalia for secretary.

It was stated that his opposition to Geo. C. Orchard of St. Louis was based on the belief that Orchard, who is a cousin of Senator Orchard of Howell County, a prominent lobbyist, senator at the city, aligned with the forces opposed to the administration.

Seibert was among those notified by the governor.

Orchard aside Seibert told him of the governor's ultimatum and added: "The best thing to do is to let your name go before the caucus."

FLURRY IN RANKS.

Orchard made no reply, but hurried to his friends and told them of what Seibert had said. For a few moments there was a flurry in the Orchard ranks and the advice of his friends was that he remain in the ranks and let the administration forces had at least shown their hand.

Orchard saw Dockery afterwards and at the governor's suggestion withdrew his name. He was to have been nominated by the State World's Fair Commission.

The committee meeting which was an executive one was absolutely dull. The program of harmony mapped simply couldn't fall so thoroughly were the administration men organized.

While called ostensibly for the purpose of merely making a routine selection of campaign managers and formulating a definite plan of party action, the meeting of the Democratic state committee, which was convened at the Laclede Hotel Thursday morning, promises to reveal an interesting chapter of political conditions.

What appeared a certainty a week ago—the selection of Harry Hawes as chairman of the executive committee—is now a matter of doubt.

The entire power of the state administration has been brought to bear on the Hawes case, and the machine has bent every energy to secure Mr. Hawes' success.

Gov. Dockery, Secretary of State Sam B. Cook, State Treasurer R. P. Williams, State Auditor Allen, Adjutant-General Dameron and James M. Seibert are directing the administration forces.

HAWES' POPULARITY.

With the exception of Seibert, it is stated, Hawes has the support of the political influences here mentioned.

The circumstances which have brought about Mr. Hawes' popularity and his proposed elevation as the financial manager of Democratic campaign funds at the coming election have caused considerable speculation among the candidates.

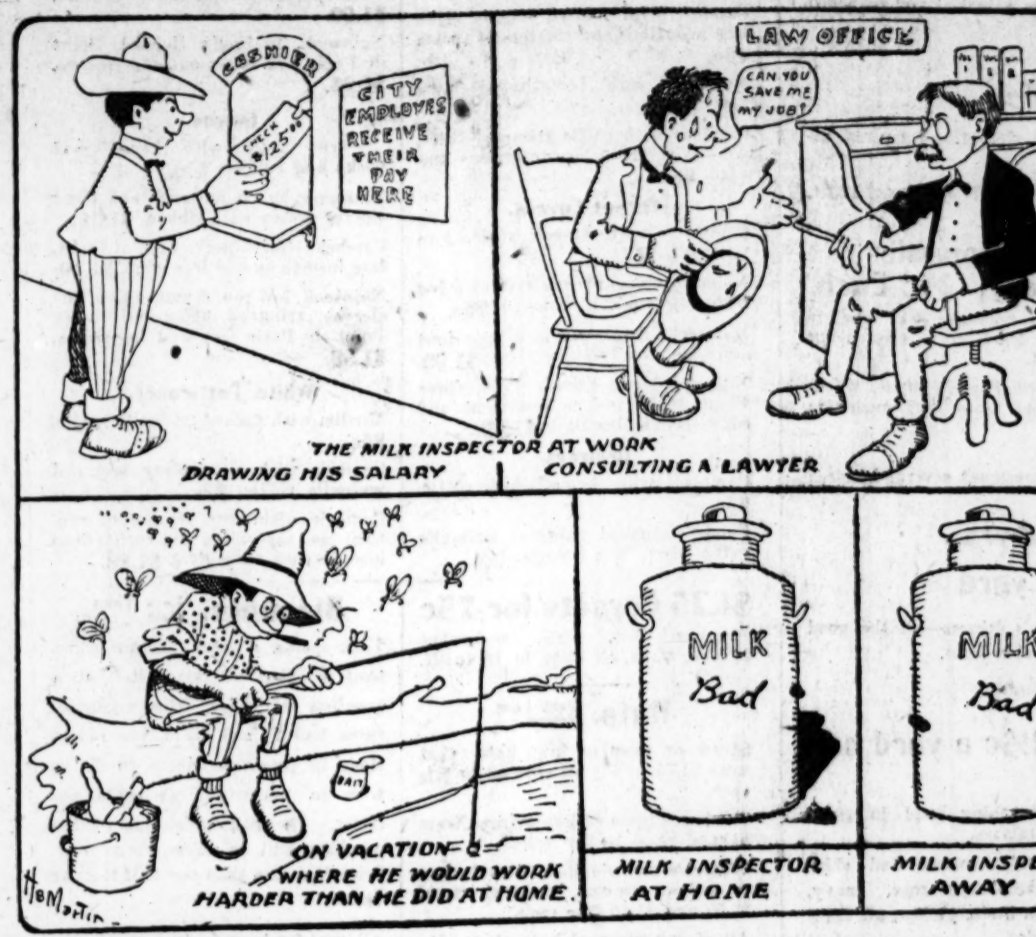

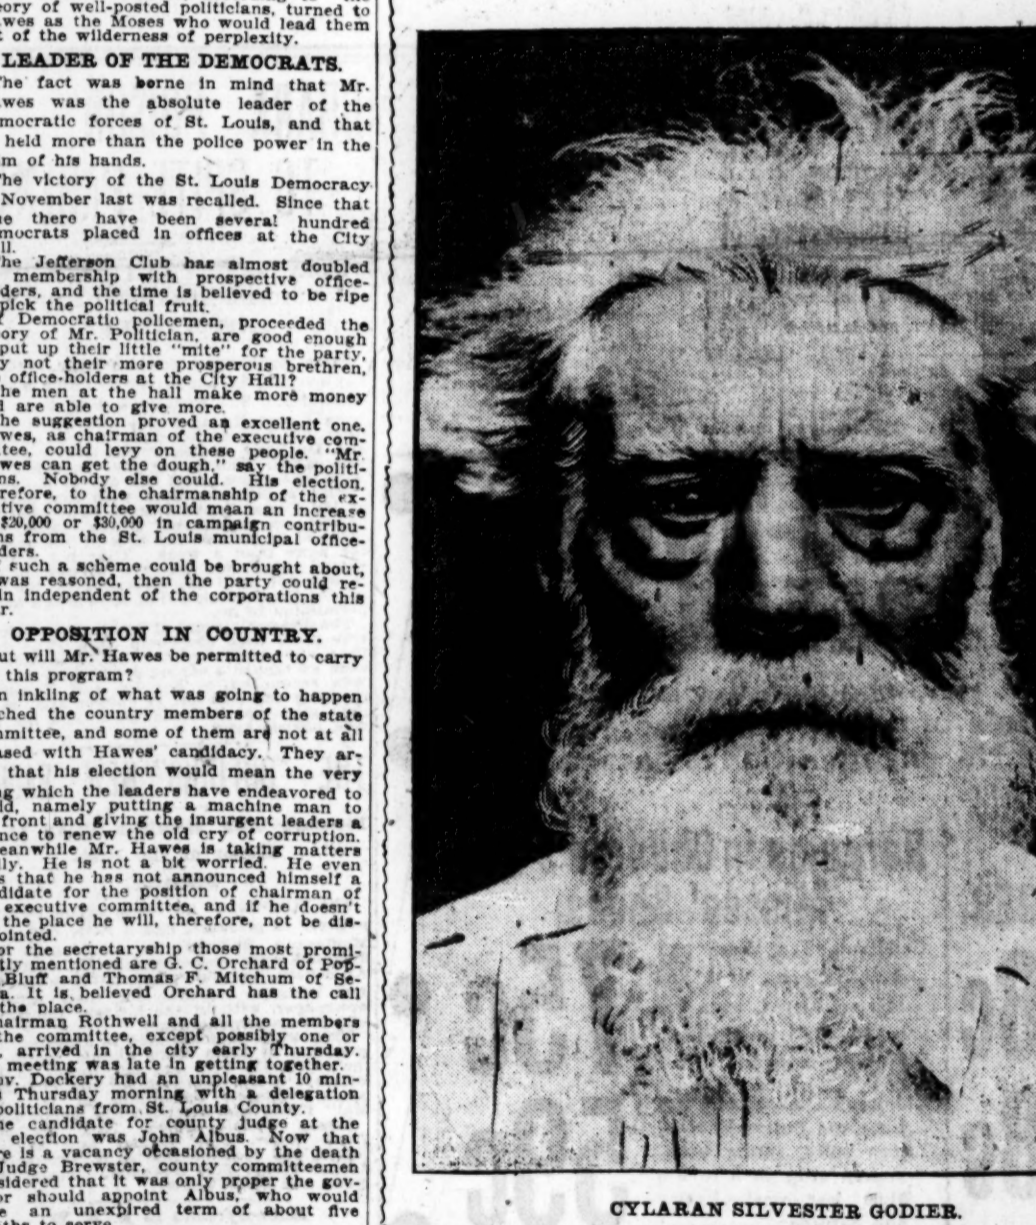

In the first place, Hawes is given credit by the state leaders for redeeming St. Louis from Republican rule.

The politicians declare that his mastery organization and skillful handling of the Jefferson Club is of itself sufficient to stamp him as a great leader.

Hawes sought to carry his idea of Democratic organization along the line of the Jefferson Club further. He went to Kansas City and St. Joe, but at neither place was he overly successful, although he received a most cordial welcome and his tips on how to run a campaign were not lost sight of by those with whom he came in contact.

Hawes has cemented the little differences in the political department at the last election of the members of the force who wanted to be classed as loyal party followers contributed their mite to the campaign fund raised by the party.

The fund of nearly \$15 per cent of their monthly wages.

Mourns Loss of Document Which  
He Says Would Have Given  
Him a Fortune.**

Cylaran Silvester Godier, of 219 Ruiger street, a Monte Cristo in fact, would be a Monte Cristo in fact if his dream cherished for 35 years were only true.

Way back in '69 he gained possession of a book and map which told of a mountain of gold hidden in the Ozark range. The book was lost before he could puzzle out the difficult cipher which would lead him to the spot.

And for more than half a century Monsieur Godier, a grandson of Nicola Doldura, a soldier who followed Lafayette from France to fight for American freedom, has mourned for his lost book, yet believing that some day he will see the gold of his vision.

M. Godier is content to wait. He is 82 years old—youth for a merry man born and bred in old Canada.

A M. Godier went to see Dr. Albert B. Vogel at the City Dispensary Tuesday to secure a tonic, which Dr. Vogel had prescribed for him frequently. There he told his story—a tale of hope and gold.

El Dorado—Worked 900 Years go.

The book told how this Eldorado had been discovered and worked 900 years ago by Japanese adventurers, who won much gold and then returned to their ships on the Pacific coast and fared back home, leaving their slaves who, M. Godier says, are the ancestors of the American Indians.

The gold mountain was in the mountains of the west, near where the two greatest rivers in the world united. The maps, which could only be worked by the secret cipher, showed the exact spot.

In the spring of 1869, while M. Godier was steward of the steamboat John Simon, he found a large book hidden on the boat. He could not read it, for school teachers were scarce in old Canada when he was young, but M. Godier, who was on the boat, could read it to him.

**TWISTING EARTHQUAKE

Chimney in Town Left Standing.****NO LIVES KNOWN TO HAVE BEEN LOST**

LOS ALAMOS, Cal., July 31.—The most severe earthquake in the history of this place occurred at 1:30 this morning. It is not possible as yet to estimate the damage, but it is very heavy.

No lives are known to have been lost, though there were many narrow escapes. Every brick building in town was destroyed or badly wrecked.

In nearly every house windows were broken. The Presbyterian Church, a large and handsome brick structure, was razed to the ground, and a similar fate befell the general store of W. S. Wickenben, also a brick building.

**THREE SHOCKS AT LOMPOC.**

LOMPOC, Cal., July 31.—Three distinct shocks of earthquakes were felt here last night, two of the shocks being very severe, lasting over a half-minute each.

Los Alamos is about one hundred miles from Los Angeles, in the southwestern part of California. It has about six hundred inhabitants. Santa Barbara County, in which it is located, is on the Pacific coast. It is diversified by mountains and valleys. The Santa Inez range traverses this county from north to south.

The climate is mild and almost tropical. No rain falls between May and November. Earthquakes are not infrequent.

**GENERALLY FAIR AND COOLER****Big Rain in Little Rock, Also in  
Texas and Louis.**

"Generally fair today and Friday. Cool-  
er tonight because of the high that is  
coming in from the northwest."—Dr. Hyatt.

Now, isn't that weather for you, espe-  
cially when you remember that today is  
the last of July, and tomorrow will be the  
first of August—times when you expect to  
ride even when you live next door to an  
ice man.

Surely some of this  
weather must have  
been bought last  
winter when the  
market was long on  
breacans and other  
cool things." Dr.  
Hyatt is certainly a  
good provider—some-  
times.

Down in Texas  
they have no Dr.  
Hyatt, and they're  
having d r e a d f u l  
times. Same way in  
Arkansas and Louis.

In Little Rock the precipitation is 4.8  
inches, and still raining.

"Wouldn't that jar you?" (That's a clas-  
sical quotation from the weather bureau.)

Shreveport, La., is trying to keep up with  
Little Rock, but is only a slow seep, with  
1.6 inches of rainfall.

St. Louis is not in this race at all. No  
rain or very little expected here for some  
time.

## CARDWELL FLAYS THE DEMOCRATS

Speaks at Public Ownership Convention at Uhrig's Cave.

NEW PARTY NEEDED, HE SAYS

QUOTES JEFFERSON THAT NO PARTY CAN BE UNCORRUPTED FOR TWENTY YEARS.

E. Eitzenhauser Made Temporary Chairman, John Slavin and W. B. Henderson Secretaries, and Daniel Murphy Sergeant-at-Arms.

At the opening session of the state convention of the Public Ownership party at Uhrig's Cave Thursday morning, W. O. Cardwell, a recent recruit from the Democratic ranks, poured hot shot into the Democratic state administration.

"The machine in control of the state at present does not represent the Democracy of Missouri," he shouted. "His ambition is to perpetuate the Democratic party in power in Missouri but to perpetuate its members in office."

"The Democratic ring has driven off the late committee Frank P. Walsh and his associates who believed in carrying out the will of the people, and not the corporations. The action of the ring in so doing shows that it believes in receiving money from corporations and guaranteeing them immunity from hostile legislation in return."

Thomas Jefferson says that no party can remain in power 20 years without becoming corrupt. The Democratic party has been in power in Missouri over 20 years. I am the only delegate from Vernon."

NEED OF NEW PARTY.

Cardwell said there was need of a new party in Missouri. He declared

that he had come to the convention to help to organize one.

"And the presence of all you gentlemen," he declared, "shows that you agree with me that a new party should be formed in Missouri."

He declared that the Democratic party would hear from the people next election day.

Cardwell addressed an audience of about four hundred delegates. St. Louis had elected 23 delegates to the convention, and nearly all of them attended. The delegation of about sixty was present from Kansas City, and about thirty from St. Joseph.

About twenty counties were also represented. Many of them had only a solitary delegate. The majority of them looked like they were right off the farm.

The number of well-known citizens in the convention was very small. They included Lee Meriwether, his father, Minor Meriwether, E. E. Boyer, Dr. James M. Ball and Dr. W. M. Brandenburger.

The morning session of the convention was merely preliminary. At Thursday afternoon's session it is announced that complete city and state tickets will be named. Lee Meriwether called the convention to order a few minutes before 6 o'clock.

**OFFICERS SELECTED.**  
He introduced E. Eitzenhauser of Kansas City as temporary chairman. John Slavin of Kansas City, W. B. Henderson of St. Joseph, and R. F. Wendover of St. Louis were selected as secretaries and Daniel Murphy of St. Louis as sergeant-at-arms.

After a brief speech by Mr. Eitzenhauser, the appointment of a committee on resolutions and a committee on platform and order of business was taken up. This did not proceed with the customary celerity. The chairman was unable to talk as loudly as the delegates desired and W. M. Brandenburger jumped into the breach by announcing that he would serve as reading clerk. He made the announcements with a resonance of voice that left Pollard would not have been ashamed of.

The committee was called first. From several counties came the delegates. The speaker was "the only delegate present" from that particular county. He was promptly impressed into service on both committees.

The St. Louis wards announced their committee members in regular succession until the twenty-seventh ward was called. Then Orville T. Smith declared that the roll had been completed a delegate from Adams County announced that Charleston County had been overlooked.

"The delegate here," said the Audrain delegate, "but he is hard of hearing. Then, pointing to a small, bewhiskered delegate by his side, the main man continued:

"Charlton County names for both committees Mr. H. H. Winfrey. Mr. Winfrey's name was shouted by Brandenburger to the secretary and was read out loud."

**PLACE TO MEET.**  
After the committees had been selected there was a discussion as to where they should meet. Mr. Meriwether wanted one to meet in the east side of the garden and one in the west.

At this point arose Mr. Garver, a deputy delegate from Vernon County. "I am the only delegate from Vernon."

he said. "I am both committees. If they meet in different places at the same time, how am I to attend to my duties in both bodies?"

The chair failed to enlighten Garver on this point.

This question was settled by the appointment of Dr. Ball, George Paxson and John Phare to find suitable meeting places for both committees. They reported that there were two halls in the Uhrig's Cave building on the grounds.

Then the committees retired and Mr. Cardwell mounted the rostrum in response to repeated calls from the delegates. At this time it was announced that the committees were not ready to report and adjournment was taken until 1:30 o'clock.

A very complete and interesting pamphlet, entitled "Taney County, Missouri, and her Lead and Zinc Deposits," by Mr. W. H. Johnson, has been placed for free distribution at the city ticket office of the Frisco System, Eighth and Olive streets.

## YOUNG BATHER DROWNED.

Frank Wisniewski Sucked Beneath a Barge at Foot of Madison Street.

Frank Wisniewski was drawn beneath a barge in the river at the foot of Madison street Wednesday afternoon, while he was disporting himself upon a floating log, and was drowned before his companions could reach him.

Wisniewski, who is 14 years old, is employed in a chain factory at Second and Chambers streets. During a leisure hour he and several fellow workers went to the river to bathe. He caught a log and was riding it, when an undercurrent sucked it to the barge and beneath it.

His companions made efforts to save him. The body was recovered and taken to the boy's home at 1221 Saratoga place.

## THOMAS MURPHY CAUGHT.

He is Charged With Assaulting Philadelphia Baseball Magnate.

Thomas Murphy of Philadelphia, Pa., who is charged with assaulting Cornelius McGillicuddy, manager of the Philadelphia Baseball Club, American League, was arrested Thursday by Detectives Brady and Ziegler.

The assault, it is alleged, was committed last year at Philadelphia. Murphy is a brother of the ground keeper at the Baltimore Baseball park, and was once employed as a ground keeper in St. Louis.

## Not Dependent on a Single Train.

The New York Central lines have whole flying batteries of trains connecting the centers of population and the gateways of commerce.

Overcome by Heat.—J. E. Brady, aged 61 years, fell on the floor of the Royal building, on Sixth street, Thursday morning and sustained painful injuries. It is believed that he was overcome by heat. He was sent to the City Hospital.

## FRISCO TO BE A GREAT ROAD

O. & E. I. Deal but Beginning  
of Its Expansion.

TO OPPOSE MORGAN INTERESTS

RUMOR THAT I. C. IS NEGOTIAT-  
ING FOR FRISCO DENIED.

If Plans of President Yoakum Are  
Successful Line Will Connect Coast  
With Gulf and Gulf With  
Lakes.

On the same authority that the exclusive  
announcement was made in the Post-Dis-  
patch Wednesday of the lease of the Chi-  
cago & Eastern Illinois Railroad, the report  
that the Illinois Central is negotiating for  
a lease of the Frisco system is denied.

A telegram from New York to this Fourth  
street house, received at the opening of  
business Thursday morning, read: "Rumor  
that Illinois Central will control Frisco  
discredited. High officials of the St. Louis  
road declare that now it will remain inde-  
pendent."

Brokers generally pin no faith to this  
story that was only rumored in Wall Street  
but widely exploited in Chicago.

There is no doubt of the feeling of certain  
interests in regard to the aggressive policy  
of the Frisco management, and its well-  
come by sister roads into Chicago is not  
likely to be embarrassing effusive.

Morgan has only recently been able to ef-  
fect the desired entrance from the South to  
Chicago. This was brought about through  
the aid of John W. Gates, who kindly  
bought up control of the Louisville &  
Nashville and turned it over to his friend.  
Then the Morgan was purchased and the  
L. & N. and Southern became direct com-  
petitors of the Illinois Central.

To this situation is ascribed the rumors  
that a deal is on between Hartman and  
Yoakum to fight Morgan.

A director of the road Thursday declared  
the Eastern Illinois had been bought out  
right, and that the Frisco not only in-  
tended to remain independent, but to reach  
out in all directions.

A glance at the map reveals the aston-  
ishing growth of this St. Louis road in the  
last six years.

Frisco Is Now a  
Great Trunk System.

From almost a local "jerkwater" it has  
developed into a great trunk system. When  
present projects become realities it will  
be in the front rank of the greatest roads of  
the continent.

It is proposed to connect the S. & E. I.  
at two points with the main line. The Kan-  
sas City & Memphis division reaches Gran-  
din, Mo., by a spur. From Grandin to  
Gray's Point on the Mississippi there is a  
short line, which the Frisco will purchase  
or build their own road. The St. Louis di-  
vision will be extended to St. Elmo, Ill.,  
on the leased road. As the Vandallia crosses  
the C. & E. I. at this point it is thought  
some traffic arrangement will be made.

## "I SUFFERED TERRIBLY WITH FEMALE WEAKNESS."

SAYS MRS. ESTHER M. MILNER.

"I Had the Headache Continually  
—Could Not Do My Work—  
Pe-ru-na Cured."

Mrs. Esther M. Milner, DeGraff, Ohio,  
writes:

"I was a terrible sufferer from fe-  
male weakness and had the headache  
continually. I was not able to do my  
housework for my husband and myself.  
I wrote you and described my condition  
as near as possible. You recommended  
Peruna. I took four bottles and was  
completely cured. I think Peruna a  
wonderful medicine and have recom-  
mended it to my friends with best re-  
sults."—Mrs. E. M. Milner.

Miss Mamie Groth, Plattville, Wis.,  
writes: "Accept a grateful girl's thanks for  
the wonderful help I have received through  
the use of Peruna. Although I looked well  
and strong I have for several years suf-  
fered with frequent backache, and would  
for several days have splitting headaches.  
I did not wish to fill my system with poison-  
ous drugs, and so when several of my  
friends advised me to take Peruna, I asked  
my physician what he thought of it. He  
recommended it and so I took it and am  
entirely without pain of any kind now."—  
Miss Mamie Groth.

Dr. S. B. Hartman, President of The

Hartman Sanitarium,  
has had over fifty  
years' experience in  
the treatment of fe-  
male catarrhal diseases.  
He advises women  
free of charge. If you are suffering from  
any female derangement write him a de-  
scription of your symptoms and he will give  
you the benefit of his experience in the  
treatment of women's diseases.

If you do not derive prompt and satisfac-  
tory results from the use of Peruna, write  
at once to Dr. Hartman, giving a full state-  
ment of your case, and he will be pleased  
to give you his valuable advice gratis.

Address Dr. Hartman, President of The  
Hartman Sanitarium, Columbus, O.

Illinois stockholder will receive 34 certifi-  
cates for each share of his stock. All the  
stock of the company absorbed will be de-  
posited, and against that stock will be is-  
sued the new collateral trust bonds of the  
Frisco road, which will be a direct obli-  
gation of the Chicago & Eastern Illinois to  
be taken are not ready to be announced."

Murderer Will Not Appeal.

NORFOLK, Va., July 31.—Convicted by a  
jury in the Norfolk County Court, of mur-  
dering his wife, William Treadwell will not  
sanction the application of his counsel for  
a new trial. He declares that he purchased  
the pistol with which he killed his wife  
with the intention of killing himself as well  
as her, and that he has no desire to live  
whatever. After shooting his wife the man  
turned the pistol upon himself and was  
quickly recovering from the wound.

# GENERAL SPORTING NEWS

## JOHNNY REGAN AND KID GOODMAN TO BOX 20 ROUNDS AT WEST END CLUB TONIGHT

Winner of the Contest Will Meet Harry Forbes at One Hundred and Eighteen Pounds for Bantam Weight Championship of the World.

Reorganized, as to its method of operating, the West End Physical Culture Club, under the direction of C. H. Haughton, will tonight present for the benefit of its members the first boxing match of championship caliber that has taken place here since the prevention of the Young Corbett-Dave Sullivan match some weeks ago.

Two contests have been held there since the Corbett contest, but they were of such small importance as to escape notice of all.

Tonight's contest will be between Johnny Regan, who is practically the bantam-weight champion, and Kid Goodman, a young boxer who secured a draw with Harry Forbes at Chicago, and who has a long string of victories attached to his brief ring career.

The winner of this contest will have the privilege of meeting Harry Forbes, it is said the fight will be for the bantam-weight championship through an agreement between the managers, though the affair is therefore, equal in importance with any of the several affairs of last season held at the West End Club.

The present contest will be different, however, from the previous ones, in that it is being conducted by the police department in the manner of conducting the club's contests will follow the letter of the law.

The men will not box for a purse or percentage of the receipts, but have been hired for a specified sum, an equal amount to each, to box 20 rounds for the entertainment of the members.

Only members will be admitted, with the exception that each of these under the rules of the club is entitled to bring one visitor to entertainments. If any person desires to witness the contest, he must first become a member.

This is done at the club and though the installation is accomplished by the club, it is according to regulations. "The club," says Haughton, "is not acting strictly within its rights under the interpretation of the law by Circuit Attorney Folk. My men are fighting for no prize."

Those who witness it are strictly club members and those who take it, are the points which were objected to. There is no sale of tickets and not a man in St. Louis can get into this place except under the regulations.

Under these conditions Haughton expects to be able to open up boxing for the benefit of those patrons of the game who are sufficiently interested in its development to give it a try.

Goodman, who meets Regan, did not arrive in St. Louis until this morning, owing to a delayed train. His training, however, has been conducted regularly in Boston, and he says he is in excellent condition.

Except for a slight cut on the chin, received in practice, Goodman looks perfectly fit. Furthermore, he appears to be a dangerous man, on physique.

Over Tommy Felts. In appearance he is not unlike Tommy Felts, whose memorable battles before the West End Club last winter brought him into favor. Goodman, however, is a different type, like Felts, his broad shoulders and deep chest promise hitting power and staying qualities equal to those of Felts.

who was considered remarkable for his ability to take a beating. He has given the Savannah boy a whipping was Goodman, in a recent match Goodman got the decision over Felts after 20 rounds. He is reported to have had all the best of the contest.

A preliminary has been arranged between Kid Brown and Kid Garrio, who will box six rounds at 115 pounds. Dave Nelson, who has been appearing locally, and without exception has proven a hard man for all.

Regan beat only after a two-round bout for Martin Duffy to take place at the club within the month of August.

## GOOD CARD AT DELMAR TODAY

## Two Purse Races, Three Selling Races and a Handicap the Program.

RY B. D. WALSH.

Two purse races, three selling races and a handicap make up the program for this afternoon's racing at Delmar. From every standpoint the card is a good one, and some of the smartest performers at Delmar are entered in it, including W. B. Gates, Zazel, Alice Turner and Kitty Clyde. Among those entered are Hanan and Navarino, and I merely mention them to say that no matter what weight they are allotted, in my judgment neither one of them has the remotest chance of winning. In the company they are outclassed, and consequently out of place.

On a muddy track and with light weight up Navarino would go well, but he does not seem to be so good over a fast course. Because Hanan ran third, it is to be expected that he will have a chance to win. Today Kitty will carry 101 and Alice Turner will carry 105 and that is a switch of 20 pounds.

One would think that a few pounds would make a difference in a race of this kind, but where it has been shown that the contenders are as nearly equal as possible the difference in weight becomes an important factor. A good race is obtained on the respective merits of Kitty Clyde and Alice Turner, who will be prominent factors in today's event.

KITTY CLYDE WON. On that occasion Kitty Clyde, ridden by R. Murphy, won from Alice Turner, ridden by Bonner. Kitty carried 96 pounds to Alice's 101. Today Kitty will carry 101 and Alice Turner will carry 105 and that is a switch of 20 pounds.

makers will be pretty safe in laying long odds against her.

If the race were a mile and an eighth or three-sixteenths she would have more chance to cut down the long lead which the others will surely get on to a mile and an eighth, it is at least a sixteenth too short for her.

It looks to me as if this handicap was made for Orrie, as July 5, with a difference of only three pounds, she beat Kitty Clyde by a mile and 20 yards, she beat Kitty Clyde by eight lengths. Today the difference between Orrie and Kitty is seven pounds, and on these figures she should beat Clyde easily.

ORRIS SHOULD WIN. Considering that Kitty Clyde beat the best handicap horses at Fair Grounds, that Orrie beat Clyde at practically even weights the deduction is plain that Orrie should win. Mr. B. Gates and Varro will be serious contenders in this race.

In figuring Gates' chances here his race last Saturday must be thrown out because it did not properly represent his caliber. On that race he does not figure to be one, two, three today, but on other performances he should be in the money.

Last Tuesday Varro beat Alice Turner a neck at a mile and a sixteenth with a difference of four pounds in his favor. The difference between them today is only two pounds, and this brings these two pretty close. Bonnet will ride Turner and Mathews will have the mount on Varro, and of these boys I prefer Bonnet.

Salinda is in light with 87 pounds and if she was in as good form as she showed in some of her races at Fair Grounds, she would not go beyond her for the winner. She still retains the speed that lacks the stamina, and when that is wanting the outlook for her is not so bright. No liberties should be taken with Salinda. If she is fit and decides to run they will not be able to catch her with only a feather in the saddle.

ORRIS PROBABLY THE BEST. I think Orrie, Alice Turner and Nettie Regent will be the contenders at the finish and I like them in the order named.

Two-year-olds will open the day's sport with a purse race at five and one-half furlongs. Fitz Brillar has already won at this distance twice and against better company. His last race was at Fair Grounds, where he extended his lead to 10 lengths. Hunter and Mullavia should have a close battle for show money.

## BROWNS RETURN TO BATTLE FOR PENNANT

## First of Series of Three Games Will Be Played With Philadelphia This Afternoon — Donahue Will Pitch for St. Louis.

With chests expanded and the nonchalant air of about-to-become champions, the Browns of Philadelphia returned to the field this afternoon for the first of a series of three games with the Philadelphia Athletics. The game will be played at the stadium this afternoon, after a 26-hour ride from Philadelphia.

Following them was the Philadelphia team, which also did a large business in chest expansions and nonchalance. The two teams, in fact, so much resembled each other in general chestiness that there was a feeling about the game that it was a foregone conclusion that the Browns would win. The only way the Philadelphia team could have won was by a miracle.

What is the problem? This is the horse that wins about twice as often as he loses. He is a horse of the future, but he is so dexterously manipulated that it is impossible for any outsider to know when he is "out" for the money. For that reason it is not surprising that he is a horse of the future, but he is so dexterously manipulated that it is impossible for any outsider to know when he is "out" for the money.

Three Games Will Be Played With Quakers. The Philadelphia team, after being duly admired by the station throng, was driven to the Southern Hotel, while the Browns dispersed to the various places about town known to them as "home."

Jack Ratlin. The best sprinter that has been seen at Delmar this season made his appearance in the six furlong handicap yesterday. He came from Chicago with a high reputation for speed and he fairly earned it in his effort yesterday.

able to win. It was stupid work on Dale's part and in all probability cost his mount the race. He was not in the best condition for the race, and he was not in the best condition for the race.

He got off in front, but Walsh took him to the third position, where he was not in the best condition for the race, and he was not in the best condition for the race.

He got off in front, but Walsh took him to the third position, where he was not in the best condition for the race, and he was not in the best condition for the race.

## DOHERTY FIND AMERICANS EASY

## Today's Contest in Longwood Doubles Started With Englishmen Favorites.

BOSTON, Mass., July 31.—R. F. and H. L. Doherty, members of the All-England tennis team, started play in the second match of the doubles in the eastern championship series, with Noelie and Wilbar as opponents, this morning.

The Americans do not appear to have a chance in this match against the Dohertys, that reason remained away from the team. There is an attachment out for him in that place or would be if he presented himself there, for what John I. Rogers thinks is a breach of the contract.

Donahue says it is merely a breach of the reserve clause, which you will understand that is the only reason for the matter of the attraction of ballplayers. It is no more than a breach of the reserve clause, which you will understand that is the only reason for the matter of the attraction of ballplayers.

Has Profited. However, Donahue has profited by his absence from the team to rest up and should pitch a winning game today if the team is in shape to support him properly. Donahue is a pitcher of the original class, and a home engagement, a series with what should be the weakest team in the league coming, the Baltimore, and first place in the league is the condition that confronts the Browns.

If they can't start out first place now, they will scarcely do it later on. Secretary Hedges thinks he has first place already occupied up to the time of the season. There are three healthy organizations to be moved out of the way before the season.

The time is ripe for a winning sport by the St. Louis American League club. If it has such a thing left in its constitution it had better take it right now, as such an occasion as now presents itself, will not offer again, probably, during the season.

A home engagement, a series with what should be the weakest team in the league coming, the Baltimore, and first place in the league is the condition that confronts the Browns.

If they can't start out first place now, they will scarcely do it later on. Secretary Hedges thinks he has first place already occupied up to the time of the season. There are three healthy organizations to be moved out of the way before the season.

# AND FOR ICE FUND FROM FAR-OFF MAINE

D. D. WALKER INSTRUCTS REPRESENTATIVE TO FORWARD \$50.

## NEW CONTRIBUTIONS RECEIVED

Mrs. Julia Jacobs, Another Friend of Summer Sufferers, Sends a Donation.

The Post-Dispatch does not employ solicitors nor subscription lists in collecting contributions to the Free Ice Fund. Please send contributions direct to this office.

"From Maine to California" is a standard expression used to illustrate the great area of the United States.

The charity impulse which suggested the establishment of the Post-Dispatch Free Ice Fund seems almost as broad as the great continent between the oceans.

The Fund received a \$50 donation Thursday from D. D. Walker, a St. Louisan summering in Maine.

Now it is up to California.

Mr. Walker is away up in Maine, near the Great North Woods, where the days are cool, the nights a delight.

There the water is sparkling, the breezes bearing the balm of health, and strength is found in the sun rays.

The St. Louiser thus realizes all this, and he knows his own city. He sympathizes with the weary mothers and the hot, tired children of the congested districts, where a cool breeze is not known and ice a luxury.

His donation will bring cheer to many, the ice bought with the money may save lives, a few drinks of ice water may touch the balance and aid an invalid to summon strength to fight disease.

Even 10 cents worth of ice means rest and reinforcement to a fever patient.

Mrs. Julia Jacobs, another friend of the summer sufferers and the Post-Dispatch, sends a donation to aid the ice fund. Her letter and one from D. D. Walker's company follow.

To the Editor of the Post-Dispatch: Kindly add the enclosed \$5 to your "ice fund" for the benefit of the poor. Sincerely yours, D. D. WALKER.

## KAISER WILLIAM PARDONS DUELIST

LIEUT. HILDEBRAND, WHO KILLED BLASKOWITZ.

BERLIN, July 31.—Emperor William has pardoned Lieut. Hildebrand, who was sentenced to two years imprisonment in a fortress for the killing of Lieut. Blaskowitz, in a duel, last November. The affair attracted international attention, because Blaskowitz was shot and killed on the morning of the day set for his wedding.

The duel, which took place at Interburg, East Prussia, followed an episode in which Lieut. Blaskowitz, while intoxicated at a bachelor dinner, struck Lieut. Hildebrand. A regimental court of honor decided that the duel was unavoidable. An investigation developed the facts.

Lieut. Blaskowitz awoke the day after his bachelor dinner without any recollection of the altercation, and went to visit his fiancée, whence he was recalled to fight the duel.

Lieut. Hildebrand served only seven months of his sentence. He was pardoned by the emperor by saying that Lieut. Hildebrand acted simply as the laws of honor required, that he had to fight and kill his opponent if he could.

Our Semi-Annual Inventory is just completed—it discloses the fact that we have many thousands of dollars' worth of goods on hand that we should not have—that in many instances certain lines are entirely too large, in others they are surprisingly small. Whether large, small or medium sized, all have undergone terrific price-cutting in order to unload during the early part of August, not alone to enforce our imperative rule to carry no stocks over from one season to another, but also to make room for the largest and finest stock of fall goods that ever entered the portals of Famous.

Here's an opportunity to buy such goods as are most needed at this particular time at prices which we guarantee to be at a lower level than has ever been experienced by the oldest shopper in St. Louis County. You cannot afford to miss this sale—you cannot afford to miss reading every item contained in this ad. Hundreds of others equally as good, not mentioned, will be found on sale here tomorrow. Be on hand bright and early.

## DOUBLE LEGACY IS IMMENSE

Claimants to Rupp Estate Expect to Get Fortune of More Than One Hundred Million Dollars.

Special to the Post-Dispatch. READING, Pa., July 31.—Several hundred persons in Eastern Pennsylvania expect soon to receive a fortune of over \$100,000,000 through an allotment which occurred over 100 years ago.

The additional fortune is from the estate of Mrs. Rupp's uncle, a brother of John von Peterhagen, who died in 1800.

Not This Country. From the Chicago Chronicle.

There is to be a great fortune, if the rest of the world is to be saved, and the country over and over they will have to go to the fair ground.

## HOW TO BUILD GOOD HIGHWAYS

PRACTICAL OBJECT LESSON GIVEN IN THE NORTHWEST.

WASHINGTON, July 31.—The Great Northern Railway Co. has placed at the disposal of the office of public road inquiries of the United States department of agriculture a railroad train for the purpose of transporting representatives of the office, engineers, road builders and road machinery to be used in practical object lessons in road building. Road conventions will be held at the cities where the train will stop. The train will start from Chicago Aug. 15 and will reach Minneapolis early in September, where demonstrations of theoretical and practical road building will be given at the state fair grounds during the week. At the close of the fair the train will continue westward to the Pacific coast, stopping at the principal cities en route, at each of which practical demonstrations in road building will be given. The chief aim will be to show what can be done with such road material as can be found in the vicinity of the various cities to be visited, introducing practical road machinery and the most approved methods of road construction.

The train will be operated under the direction and management of Hon. Martin Dodge, director of public road inquiries of the United States

## TROOPS AT SCENE OF STRIKE RIOT

Artillery Will Be Summoned  
if Needed.

FOUR DANGEROUSLY WOUNDED

TRouble STARTED AT STRIKERS'  
PICKET LINE.

Deputy Sheriffs and Police En-  
countered Crowd and Shots and  
Stone Volleys Were Ex-  
changed—Twenty Hurt.

SHENANDOAH, Pa., July 31.—Nearly all  
of the residents of this town were up all  
night awaiting with anxiety the arrival of  
the militia.

It was noticeable that the pickets who  
have been guarding the approaches to the  
mines were not on duty this morning, but  
if they had been their vigilance would not  
have been rewarded, as no person was ven-  
tured enough to run the gauntlet after  
the exciting experiences of yesterday.

Brigadier-General Gobin, Pennsylvania  
National Guard, accompanied by the Pot-  
sville and Pine Grove companies of the  
Fourth Regiment and all of the Schuylkill  
County company of the Eighth Regiment,  
arrived via the Reading Railroad at 8:30  
o'clock this morning. To an Associated  
Press representative he said that in addi-  
tion to these two companies of the Fourth  
Regiment he has ordered out the entire  
Twelfth and Eighth regiments and the  
Governor's Troop. If he finds that the  
conditions here warrant it he intends call-  
ing out two batteries of artillery.

Two Wounded  
Miners Will Die.

It is impossible to obtain the names of the  
wounded foreigners. The doctors attend-  
ing them do not know their names. The  
physicians are looking after the wounds of  
20, and have little hope for the recovery  
of at least two.

Policeman Yacovsky is still in a precarious  
condition, but the other wounded po-  
licemen are doing well.

Joseph Bedal, who was reported to have  
died on the way to the Mifflin Hospital, is  
still alive at that institution, but small  
hopes are entertained for his recovery.

The trouble started about 8 o'clock  
Wednesday evening, when Deputy Sheriff  
Thomas Beddal attempted to escort two  
nonunion workers to the strikers' line  
of pickets.

The workers were dressed in their street  
clothes, but one of them carried a bundle  
under his arm, and this aroused the sus-  
picion of the strikers.

The bundle was torn from him, and when  
it was found to contain a blouse and over-  
alls the man was taken from the deputy  
and beaten almost to death.

In the meantime Beddal opened fire on  
the mob which had gathered and caught  
his revolver. He was shot in the leg and  
one man being shot in the leg and the other  
in the foot.

The deputy and the other strike breaker  
were now compelled to fly for their lives,  
and took refuge in the Philadelphia &  
Reading Railroad depot.

The depot was soon surrounded by an  
angry mob of 600 men which was becom-  
ing more threatening and demonstrative  
every moment.

Joseph Beddal, a hardware merchant and  
brother of the deputy sheriff, was seen  
making his way through the crowd in an  
effort to reach his brother.

When he was seen he was carrying  
ammunition to those inside the depot, seized  
him and beat him with clubs and bullets  
into insensibility.

Shortly after this the entire borough po-  
lice force arrived on the scene and es-  
corted the deputy sheriff and his man to  
an engine.

The rioters surrounded the engine and  
the engineer was afraid to move. In a few  
moments, however, the police fired a vol-  
ley, dispersing the crowd for a brief pe-  
riod, and the engineer turned on full steam  
and got away.

Stones were thrown thick and fast about  
the heads of the police, whereupon Chief  
John Fry gave the order to fire. At the  
first volley the mob fell back, and several  
were seen to fall. The retreat, however,  
was but momentary.

The rioters turned and with revolvers  
and stones, charged on the little band of  
policemen, and made them fly for their  
lives. The policemen turned in their flight  
at short intervals and fired volley after  
volley at their pursuers.

MITCHELL REGRETS RIOT.

WILKESBARRE, Pa., July 31.—The riot  
at Shenandoah last night has had a de-  
pressing effect at strike headquarters.  
President Mitchell was up early and asked  
for the newspapers. After reading the ac-  
counts of the trouble he was asked if he  
had anything to say for publication, and he  
replied: "I am very sorry that this thing  
has happened, but until I receive some infor-  
mation from District President Fahy I  
shall make no comment." Later in the day  
he may make a statement.

The Ninth Regiment, N. G. P., with  
headquarters in this city, is under waiting  
orders.

All the local leaders of the United Mine  
Workers deplore the shedding of blood and  
the calling out of the troops. They say the  
presence of the soldiers will encourage the  
operators to start up their mines, and af-  
ter the curfew in the Schuylkill district are  
put in operation it will only be a question  
of time until mines in other parts of the  
Yorking and Lackawanna valleys will not  
be content to remain idle while those in  
other parts of the region are working.

## MISSOURI'S GREATEST STORE. Barr's

We refer now most particularly to the tearing out of our two south passenger elevators, which are to give place to modern electric elevators (that will also open into the "Annex"), necessitating going to second and third floors at the Locust street end of the store. Every department is recklessly marking down prices, and the values you'll get will recompense you for the dust, noise and inconvenience. So come right along and get the best end-of-the-month bargains yet offered by Barr's.

### AGED CASHIER IN TROUBLE

H. F. Coe Is Charged With Diverting  
Funds of Boston Fertilizer  
Company.

Special to the Post-Dispatch.  
BOSTON, July 31.—Henry F. Coe, more  
than 60 years of age, is alleged to be short  
\$120,000 in his accounts. This explains the  
announcement of the sale of the Bowker  
Fertilizer Co. to the American Agricultural  
Chemical Co.  
An attachment for \$200,000 against the  
Dudley Hosiery Mills of Newton, Lower

Falls, by the Bowker company, has been  
filed.

Henry F. Coe, until three weeks ago  
treasurer of the Bowker company, was also  
treasurer of the Dudley Hosiery Mills.  
When Mr. Coe resigned as treasurer of the  
Bowker company the latter corporation  
filed an attachment for \$200,000 upon the  
property of the Dudley Mills.  
The directors of the Bowker Fertilizer Co.  
today stated that the ex-treasurer, Henry  
F. Coe, had applied \$120,000 obtained on the  
credit of the Bowker company to the pay-  
ment of the expenses of the Dudley Mills.

### ST. LOUIS MUSICIAN HONORED

Nathan Sacks, Pianist, Appointed Di-  
rector of Music at Baylor Col-  
lege, Tex.

Nathan Sacks, a young St. Louis pianist,  
who has just returned from Europe, has  
been honored with an appointment as di-  
rector of music at Baylor College, Belton,  
Tex., one of the leading young ladies' sem-  
inaries in the Southwest.

Mr. Sacks has spent the past three years  
in Europe, perfecting himself in his chosen  
profession. He studied in Vienna under the  
famous Lechetsky, who was one of Pa-  
derewski's teachers, and also spent some

months in Berlin. Prior to going to Europe  
Mr. Sacks was graduated from the musical  
department of the University of Michigan,  
where he studied under Albertos Jones, one  
of the foremost American instructors.

Mr. Sacks will spend a month with his  
parents at their home, 5013 Minerva avenue,  
before assuming his new position. He has  
already arranged to make a concert tour  
of the principal cities of the South during  
the fall in the interest of Baylor College.  
Mr. Sacks belongs to a well-known St.  
Louis family, all the members of which are  
talented musically. He is a brother of  
William Sacks, superintendent of an impor-  
tant division of the St. Louis postoffice.

### CLAM JUICE FOR HICCUGHS

This Gave Immediate Relief After  
Four Days of Backing Con-  
vulsions.

NEW YORK, July 31.—Constable John R.  
Kent, of the Society for the Prevention of  
Cruelty to Animals, of Newark, has been  
cured of what threatened to be a fatal at-  
tack of hiccoughs by drinking the juice of  
fresh clams. This stopped the convulsions  
which had racked him almost without ces-  
sation from Tuesday until Saturday of last  
week.  
Constable Kent is of massive build, but

during the period of the hiccoughing he lost  
more than thirty pounds and was made so  
weak that he became almost entirely help-  
less.

All known remedies were tried without  
success, when somebody suggested clam  
juice. This was tried Saturday and instant  
relief followed.

Mr. Kent is still confined to his bed as a  
result of the ordeal he has passed  
through, but his physicians expect to have  
him around again in a few days.

## HE WANTS HIS OATS

Aud Mr. Spencer Raises Hair  
Getting the "Feed."

SENDS PRICE TO FIFTY CENTS

WILD HOWL HEARD FROM TRADERS ON 'CHANGE.

Persons Who Were Short Were Too  
Stunned by the Attack to Either  
Buy or Sell.

Shortly after the opening bell sounded for speculative trading to begin in the grain pits of the Merchants' Exchange Thursday, Corwin H. Spencer, the street railway magnate and millionaire grain trader on 'Change stepped into the pit, raised his hand and said, "I'll give cents for July oats." Then, as no one offered to sell, through the babel of noise that had been going on at once and everyone in the pit turned their attention to Mr. Spencer. He raised his voice and remarked, "Well, I'll give 50 cents for July oats."

At once a wild howl went up from every trader. Chicago was not the only market with a grain "corner" on hand. The July option in oats at St. Louis was "cornered," as well as the July oat option in Chicago. The people who were short made no effort either to buy or sell after Mr. Spencer's market and hair-raising bid. They were too stunned by the suddenness of the attack. To use a patented comparison, it was like a stroke of lightning from a clear sky.

**MR. SPENCER EXPLAINS.**  
To the Post-Dispatch Mr. Spencer said in explanation of his startling action in the pit, "I had some July oats bought in this market, and after oats in Chicago had advanced well up into the 50s, I sent a broker around to the shorts who owed the oats to me and made an offer to settle with them at 41 cents. That I considered a fair price with the July price in Chicago well above 50 cents. However, only 10,000 bushels was settled on my terms."

"The other shorts said they would settle their sales by the delivery of the actual oats. Since then I have been waiting for the actual oats, but so far have received none. As there is little in store here of the contract grade, and the people who owe me the oats have made no effort to settle, I deemed it best to go into the pit and buy some oats myself. They can now call for a marginal price and ask for an injunction from the courts. All I want is the oats. But I am not running a corner, and I want that understood."

The people who are short, owing the oats on July contract, pleaded as their defense that because of the poor quality of the new oat crop, because of too much wet weather, they were unable to obtain sufficient oats of contract grade to fill their contracts for July. The stock of No. 2 oats in public elevators this morning was only 25,337 bushels.

In Chicago July oats had advanced to 60c this forenoon, notwithstanding the marginal price and the injunction applied for.

**THE SHORTAGE.**  
What the shortage amounted to in July oats in the St. Louis market was difficult to arrive at. It was said to be owing to St. Louis shipping houses who bought the oats in the country and sold July against them.

One firm that was short, W. B. Harrison & Co., after delivering all the oats he owed on contract had left over to do up to 10,000 bushels July at 50 cents in the open market and at once delivered them, making a handsome profit. Several cars of No. 2 or contract oats, were sold in the pit at 60c, also. Mr. Spencer taking all this oat crop, other shorts were hustling around, trying to have car lots of contract grade on track run into elevator, and the market was so tight that they could not fill their contracts. Under the rules of the Merchants' Exchange, notice of delivery had to be made on the last day of delivery by 12 o'clock noon, after which time no more could be taken in which to make delivery.

After 12 o'clock Mr. Spencer said he had received notices of delivery for some 30,000 or 40,000 bushels contract oats, and a considerable amount had been delivered upon by the people who owed them to him. The case may be heard by the exchange committee of arbitration for settlement.

## PORCH CLIMBER GOES UP SPOUT

SAMUEL SELTZ LOSES TROUSERS  
AND \$200 IN BILLS.

Porch climbers disturbed the slumbers of Samuel Seltz and his wife at 4:30 o'clock Thursday morning, and Seltz deplored the loss of his trousers and \$200.

Mr. and Mrs. Seltz has a room on the second floor at 112 Locust street. Wednesday night was particularly warm and the windows were open. When he retired Mr. Seltz left a roll of \$200 in his trousers' pocket. The trousers were on a chair by the side of his bed.

Outside the window to Seltz's room is a heavy copper gutter. It is by means of this thief gained access to Seltz's room. So quiet was he that the sleepers were not aroused until the room was entered. Then a false step made a slight noise, but it was sufficient to arouse Seltz. He arose in his bed and saw the thief in the window with the trousers in his grasp. Seltz sprang toward him, but the fellow dropped from the window and ran. Seltz ran down stairs two steps at a time and saw his man turn south on Twelfth street.

At the door Seltz saw a policeman, who reminded him that a slumber robe did not constitute street costume as interpreted by Judge Sidenor. Any July trousers could make the policeman understand what had occurred the thief had disappeared from view.

Seltz gave Policeman Killoran as road a description as could of the man who had his trousers and the \$200, but that description was taken in great haste and under stress, and Chief Desmond does not think it will be sufficient for his sleuths to find the man.

## "CORNERING" GRAIN WILL CONTINUE COURTS CHECK OATS' CORNER

BOARD OF TRADE'S ACTION DOES  
NOT PREVENT MANIPULATION.

IT IS A FINANCIAL HANDICAP  
Will Help the "Shorts" and Cripple  
the "Longs" by Tying Up Capital  
in Margins.

Action recently taken by the Chicago Board of Trade in fixing a marginal price for the contract grade of oats in that market is incomprehensible to the average person who deals not in the elusive "futures" on 'Change. In fact, there are a good many speculative operators on the floor of the Merchants' Exchange and of similar organizations elsewhere who do not really understand what a marginal price is and why it should be, or could be, fixed.

That its object was not understood by all the Chicago commercial writers who handled the subject was evidenced by the fact that most of them believed, and so stated in their articles, that the action taken by the Chicago board would end the bull movement in the market and that the "cornering" of grain in the future would never be repeated. The fact is, however, that the "cornering" of grain in the future is now more than ever before a possibility.

Fixing the marginal price of a certain speculative future of grain is merely fixing the price of a certain commodity. The people who have the grain sold or, in the case of the "cornering" of grain, the grain, for instance, take this particular case. The July option in oats in the Chicago market is a commodity, and the price of contract grade more oats had been sold than the people who had the grain, and the price of the "cornering" of grain, the grain, for instance, take this particular case.

POST-DISPATCH DAILY RECORD OF FINANCIAL AND STOCK MARKETS

BROKERS' EYES ON A TEN-CENT ADVANCE IN WALL ST. BOARDS

LITTLE INTEREST LEFT FOR THE A SQUEEZE IN THAT OPTION IN LOCAL MARKET.

BELL TELEPHONE WAS UP STOCKS VERY SMALL

It Was Bid Two Dollars Over Its Previous High Mark, But No Sales Were Recorded—Old Stocks in Evidence.

The New York stock board was too great an attraction for the local board Thursday, and the call on the St. Louis exchange was about the quietest on record.

The attendance was the smallest that year, and no representative from New York connected with the board was present.

The call was without a feature and with the exception of St. Louis and St. Paul, the only sales were in local stocks.

Prices ranged downward all day, and the chief feature was the decline in the stock of the Bell Telephone Company.

There was a change in the market, and the stock of the Bell Telephone Company was bid at \$100.00, but no sales were recorded.

There was a change in the market, and the stock of the Bell Telephone Company was bid at \$100.00, but no sales were recorded.

PROFIT TAKING NOW BY FRISCO HOLDERS

RECORD PRICE OF 85 1-2 TOUCHED, BUT WAS NOT HELD.

LIQUIDATION ALL AROUND

Special to the Post-Dispatch.

NEW YORK, July 31.—After sparring for nearly a month, the market for Chicago and St. Louis wheat has been liquidated.

The loss was due to profit-taking by western wheat holders, who had been holding out for a higher price.

The tendency now seems to be towards a recovery, but the market is still weak.

There was a heavy sale of wheat at 85 1-2, but it was not held.
